

Appendix E
STUDENT-ATHLETE POLICY

Student-athletes are allowed to apply and progress through the ATP with the understanding that the requirements of the ATP involve classroom education as well as extensive clinical experiences. Clinical experience once in the ATP consists of a minimum of four days a week clinical rotations mostly during the afternoons including off campus rotations and some weekend requirements depending on the assigned clinical rotation. Every effort will be made by the ATP to work with the student-athlete's schedule, however academic and programmatic requirements are the highest priority, to maintain the integrity of the ATP and the athletic training profession.
