Concurrent enrollment may affect eligibility for federal financial aid and scholarships, please contact the Student Financial Services office at 660-543-8266 if you have any questions. For the purposes of federal financial aid and scholarships, students are considered to be at the undergraduate level (and only undergraduate courses are counted for federal aid and scholarship purposes) until the Bachelor's degree is awarded. Students will be considered graduate level after the Bachelor's degree is awarded and the student is only taking graduate level courses.
