How to connect to the University Wi-Fi network

1 – Select **UCMO-WiFi** from the list of available Wi-Fi networks. Does it prompt you for a **username** and **password**? NOTE: Newer devices can auto-configure to connect to UCMO-WiFi. However, check your device's user guide to see if it can be manually set for WPA-AES then try to connect to UCMO-WiFi.

If you are prompt for a **username** and **password** but having trouble connecting to **UCMO-WiFi**, contact the UCM Technology Support Center for assistance.

2 – Students can connect up to 3 wireless devices to the **UCMO-Guest** network if their wireless device is an older game console, smart TV, etc. that does not prompt you for a username and password when connecting to UCMO-WiFi. Students must manually enter each device's wireless MAC address.

UCM'S GUIDE TO GOOD DECISION MAKING & HOUSING POLICIES

As a student, you are expected to follow the guidelines & policies within UCM's **Guide to Good Decision Making**. This guide provides all university policies including those within University Housing.

Students who live in the residence halls and campus apartments have a unique and exciting opportunity to directly engage with other students in a vibrant and dynamic learning environment. Compared to students who live off campus, students who live in university housing have higher grade point averages, higher retention rates, and report greater satisfaction with the University. Living in this environment includes responsibilities that are unique to residential life. These responsibilities are designed to help create a community that is:

- **Conducive to learning**
- **Safety conscious**
- **Respectful of others**
- **Responsibly regulated**

Some of these policies address how you should interact with others (roommate disagreements, cohabitation, use of shared resources, actions that disrupt the educational atmosphere, etc.) while other policies address environmental matters directly related to safety (fire safety concerns, creating hazards). You are encouraged to reflect on these responsibilities and ask staff for clarification if you do not understand the purpose of a policy.
