Dear UCM Student:

Effective July 1, 2015, Missouri State Law Senate Bill 716 Section 174.335, RSMo, requires all students living in on-campus housing to receive the Meningococcal Vaccine. Here’s what it means for UCM students, beginning this fall:

1. If you are a student who plans to live in University of Central Missouri student housing, you must submit documentation to the University Health Center proving you have received the Meningococcal Vaccine after the age of 16 years. Priority deadline to submit your documentation is July 15, 2015. Receiving your documentation by this date ensures that it will be processed by UCM’s Move-In Day. It is best if you have received the vaccine at least two weeks before your move-in date.

2. Information related to a student’s health record can be delivered in person, faxed to the Health Center at 660-543-8222, or sent via mail to: University Health Center, University of Central Missouri, 600 S. College Ave., Warrensburg, MO 64093.

3. Check with your physician for vaccine availability.

4. If you do not receive the vaccine due to medical or religious concerns, a waiver must be completed and submitted to the University Health Center by the priority date of July 15, 2015. This waiver form may be located at www.ucmo.edu/uhc under the Immunization Policy link on the left hand side of the webpage.

5. University Health Center will have the vaccine available from 1 to 4:30 p.m. during Freshman Orientation Days. You must have a schedule of classes to be eligible for the vaccine. Students may pay cash, check or charge and will be given a document to submit to their insurance company for reimbursement.

PER STATE REQUIREMENT RECEIPT OF THE MENINGITIS VACCINE OR WAIVER MUST BE ON FILE PRIOR TO MOVE-IN.

We appreciate your assistance in helping UCM to provide a safe, healthy campus environment for everyone. If you have questions, please do not hesitate to reference the UCM Health Center webpage (www.ucmo.edu/uhc) or contact the University Health Center at 660-543-4770.

Sincerely,

Dr. Sharlene Bax
Vice Provost for Student Experience and Engagement
University of Central Missouri
Dear UCM Transfer Student:

Effective July 1, 2015, Missouri State Law Senate Bill 716 Section 174.335, RSMo, requires all students living in on-campus housing to receive the Meningococcal Vaccine. Here’s what it means for UCM students, beginning this fall:

1. If you are a student who plans to live in University of Central Missouri student housing, you must submit documentation to the University Health Center proving you have received the Meningococcal Vaccine after the age of 16 years. Priority deadline to submit your documentation is **July 15, 2015**. Receiving your documentation by this date ensures that it will be processed by UCM’s Move-In Day. It is best if you have received the vaccine at least two weeks before your move-in date.
