

Virtual Lunch & Learn Series:

Addressing Non-Compliance Identified through the DESE Tiered Monitoring Process

This one-hour virtual training series is aimed at Special Education staff seeking practical guidance on common areas of non-compliance. Each session offers a focused overview of key topics, highlights compliance requirements, and addresses frequent documentation errors that lead to non-compliance findings.

This series is particularly useful for schools with identified non-compliance needing corrective action training and those preparing for the 2026-27 self-assessment cycle who want to improve documentation proactively.
