Good evening,

I am writing to provide an update regarding our progress on the Corrective Action Plan. Since providing the last update on 7-22-2025, the following actions have occurred:

- 1) Mr. [REDACTED] has indicated that he is prepared to move forward with the Commercial Operations Vendor License Agreement as prepared by UCM. That contract is being finalized and will be ready for signatures soon.
- 2) The following language will be inserted into our Fall 2025 aviation course syllabi: *"Students are not permitted to perform maintenance on aircraft outside of UCM-authorized activities as outlined in the Department of Aviation Flight Operations Manual."*

Please let us know if you have any questions or comments. As noted previously, we look forward to receiving your response regarding the CAP and our subsequent updates documenting its implementation.

Sincerely,  
Doug
