ABOUT THE CRIMINAL JUSTICE PROGRAM
The degree program is an exciting course of study designed for students interested in pursuing a four-year criminal justice degree. Ideally, students must complete general education courses or have completed an Associate of Arts degree at an accredited community college before starting at UCM Summit Center.

Criminal justice courses will be taught Monday through Thursday at the UCM Summit Center and can be supplemented with numerous online criminal justice offerings each semester.

CAREER OPPORTUNITIES
As a UCM criminal justice graduate, you'll become part of an international network of thousands of working alumni and colleagues. Our alumni include judges, attorneys, professors, juvenile justice leaders, more than 400 chiefs and police administrators throughout the world and members of virtually every federal law enforcement and corrections agency. Think about just some of these career opportunities: arson investigator, civilian crime scene technician, victim/court advocate, conservation and wildlife officer, bank examiner, border patrol agent, ballistics expert, criminologist, customs inspector, detective, fish and game warden, park ranger, forensic pathologist, highway patrol officer, juvenile probation officer/counselor, lawyer, IRS agent, narcotics investigator, warden, case worker, asset protection specialist, cyber crimes detective, probation & parole officer, casino security and so much more.

**ABOUT THE SUMMIT CENTER**

If you work or live in the Kansas City area, UCM Summit Center can help you fulfill your dream of becoming a college graduate, whether you seek a bachelor’s or master’s degree. UCM Summit Center provides the freedom to take the classes you want at the times and places most convenient for you. Evening classes complement online and interactive courses. Flexible program schedules make it possible to pursue an education and fulfill work and family obligations.

The UCM Summit Center is a 40,000-square-foot facility located at the Summit Technology Campus in Lee’s Summit. Its multi-use classrooms are equipped with computers, projectors, VCR/DVD devices, and white boards. In addition, the center offers interactive television classrooms, video conference rooms, bookstore, and computer labs.
