CENTRAL MISSOURI REPERTORY

Central Missouri Repertory (CMR) was founded in 1980. It was formed with the purpose of offering professional entertainment during the summer to the west-central Missouri region. In the first three seasons the company performed two shows in rotating repertory, offering a unique opportunity for Central students to participate in a professional repertory company. In the fourth season a touring Children's Show was added.

In 2007 the company returned to a one show format. Auditions and interviews are open to any Central student. Auditions and interviews are announced and held on campus sometime in February. The company begins working in May with performances in June. Positions are available for actors, actors/techs, shop carpenters, electricians, properties, costumes, box office, public relations, and all other support and artistic areas. These positions carry a cash stipend, credit (in THEA 4900, Repertory Theatre), and/or any combination of the two.

All applicants must have a resume, a photo and a portfolio if applicable for technicians. This should be part of your professional training and CMR was developed as part of a well rounded theatre program. Sometime during your education you should plan on spending a summer in Warrensburg, taking a few classes and working with CMR.
